

# CONSTRUCTION

HARTFORD JT 1

AUGUST 28, 2025

## CENTRAL

Our family bathroom is really coming together! You can see the floor and wall tile are in, the toilet is mounted, and the changing station has been attached to the wall. With co-curriculars coming back, the convenient location off the cafeteria will be helpful for all!

## LINCOLN

Mr. Johnson smiles and waves from the new music room at Lincoln. The solatubes are in and bringing in natural light. (These appear as regular lights, but the lighting is more white indicating natural light from above.) Dimmers will be installed in the near future as will soundboard to both add color to the room and dampen sound.

## ROSSMAN

The mason started putting brick along the columns and water proofing them. The swale that was added to slow down and filter stormwater runoff will help with drainage and erosion control in our front landscaping.

*Watch our progress throughout the summer!*

THANK YOU, VOTERS!
