

CONSTRUCTION

HARTFORD JT 1

JULY 18, 2025

CENTRAL

The carpeted steps in the main hall, which also served as the lost and found area and catch-all, has been removed... The wall will be fixed, new tile will be laid and eventually there will be tables and chairs for a nicer congregation area!

LINCOLN

Even though it's been slow going, the construction crew is making progress taking off the face layer of brick and the old lettering. The new front facade will include colored brick, a logo and new lettering. It will look really nice when it's done!

ROSSMAN

The crew has excavated the front main entrance and has prepped for concrete, which is getting poured today. The new canopy should be completely done in a couple of weeks!

Watch our progress throughout the summer!

THANK YOU, VOTERS!
